Binary variable which indicates if the respondent was asked in <i>lottery_vignette question</i> how much he/she agrees with a lottery (0) or an experts comitee (1)	tvignette	numeric {0, 1}

Consider the following situation: a major clinic has developed plans for allocating limited supplies of the COVID-19 vaccine. It would like to vaccinate all 1000 nurses who work in the clinic. There will only be 500 vaccines available for the 1000 nurses who work in the clinic. Because of the limited supply, the vaccine will be allocated by a lottery. The names of the 1000 nurses will be put into a large container and shuffled. 500 names will be randomly selected from the container. These 500 randomly selected names will receive the vaccine. How much do you agree that this lottery method is an appropriate way to allocate the scarce vaccines to the nurses?	lottery_vignette	numeric [0 – 100]
